teaching and studying the holocaust features 13 chapters by noted educators covering rationales for teaching the holocaust historiography and incorporating various media like documents film literature art drama music and technology it includes an annotated bibliography for educators and guidance on using technology effectively

the year 2016 marked the twenty fifth anniversary of statutory teaching and learning about the holocaust in english state maintained schools which was introduced with the first english national curriculum in 1991 the year 2016 also saw the publication of the largest empirical research study on holocaust education outcomes the ucl centre for holocaust education s what do students know and understand about the holocaust this book presents a systematic reflection on the outcomes of this quarter century of holocaust education in england and the centre s wider work to reflect on the forms and the limitations of children s knowledge about the holocaust and of english holocaust education resources these papers are then contextualised in

two ways through papers that situate english holocaust education historiographically and in england s wider holocaust culture and through papers from america switzerland and germany that place the ucl centre for holocaust education s findings in a wider and comparative perspective overall the book presents unique empirical insights into teaching and learning processes and outcomes in holocaust education and enables these to be theorised and explored systematically the chapters in this book were originally published as a special issue of holocaust studies a journal of culture and history

how do schools worldwide treat the holocaust as a subject in which countries does the holocaust form part of classroom teaching are representations of the holocaust always accurate balanced and unprejudiced in curricula and textbooks this study carried out by unesco and the georg eckert institute for international textbook research compares for the first time representations of the holocaust in school textbooks and national curricula drawing on data which includes countries in which there exists no or little information about representations of the holocaust the study shows where the holocaust is established in official guidelines and contains a close textbook study focusing on the comprehensiveness and accuracy of representations and historical narratives the book highlights evolving practices worldwide and thus provides education stakeholders with comprehensive documentation about current trends in curricula directives and textbook representations of the holocaust it further formulates recommendations that will help policy makers provide the educational means by which pupils may develop holocaust literacy

uses the holocaust to raise issues of memory and representation argues that history is the systematization of memory examines the way the holocaust gets represented in historical texts and in novels

teaching the holocaust is an important but often challenging task for those involved in modern holocaust education what content should be included and what should be left out how can film and literature be integrated into the curriculum what is the best way to respond to students who resist the idea of learning about it this book drawing upon the latest research in the field offers practical help and advice on delivering inclusive and engaging lessons along with guidance on how to navigate through the many controversies and considerations when planning preparing and delivering holocaust education whether teaching the subject in history religious education english or even in a school assembly there is a wealth of wisdom which will make the task easier for you and make the learning experience more beneficial for the student chapters include the aims of holocaust education ethical issues to consider when teaching the holocaust using film and documentaries in the classroom teaching the holocaust through literature the role of online learning and social media the benefits and practicalities of visiting memorial sites with lesson plans resources and schemes of work which can be used across a range of different subjects this book is essential reading for those that want to deepen their understanding and deliver effective thought provoking holocaust education

the holocaust has been the subject of countless books works of art and memorials fiftyfive years after the fact the world still ponders the enormity of this disaster the holocaust encyclopedia is the only comprehensive single volume work of reference providing both a reflective overview of the subject and abundant detail concerning major events policy decisions cities and

individuals up to date and designed for easy access the encyclopedia presents information on the major aspects of the holocaust in essays by scholars from eleven countries who draw on a number of sources including recently uncovered evidence from the former soviet bloc to provide in depth studies on the political social religious and moral issues of the holocaust as well as short entries identifying events sites and individuals the book also has more than 250 photographs many of them rare and 19 maps the volume includes raul hilberg on concentration camps and gypsies ruth bondy israel gutman and dina porat on major ghettos roger greenspun on the holocaust in cinema and television richard breitman on american policy michael berenbaum on theological and philosophical responses saul friedlander on nazi policy michael hagemester on the protocols of the elders of zion michael r marrus on historiography christopher r browning on the madagascar plan robert s wistrich on holocaust denial james e young on holocaust literature

the bloomsbury companion to jewish studies is a comprehensive reference guide providing an overview of jewish studies as it has developed as an academic sub discipline this volume surveys the development and current state of research in the broad field of jewish studies focusing on central themes methodologies and varieties of source materials available it includes 11 core essays from internationally renowned scholars and teachers that provide an important and useful overview of jewish history and the development of judaism while exploring central issues in jewish studies that cut across historical periods and offer important opportunities to track significant themes throughout the diversity of jewish experiences in addition to a bibliography to help orient students and researchers the volume includes a series of indispensable research tools including a chronology maps and a glossary of key terms and concepts this is the essential reference guide for anyone working in or exploring the rich and dynamic field of jewish studies

this volume represents the most comprehensive collection ever produced of empirical research on holocaust education around the world it comes at a critical time as the world observes the 70th anniversary of the liberation of auschwitz we are now at a turning point as the generations that witnessed and survived the shoah are slowly passing on governments are charged with ensuring that this defining event of the 20th century takes its rightful place in the schooling and the historical consciousness of their peoples the policies and practices of holocaust education around the world are as diverse as the countries that grapple with its history and its meaning educators around the globe struggle to reconcile national histories and memories with the international realities of the holocaust and its implications for the present these efforts take place at a time when scholarship about the holocaust itself has made great strides in this book these issues are framed by some of the leading voices in the field including elie wiesel and yehuda bauer and then explored by many distinguished scholars who represent a wide range of expertise holocaust education is of such significance so rich in meaning so powerful in content and so diverse in practice that the need for extensive high quality empirical research is critical th is book provides exactly that

when what we know about jewish education was first published in 1992 stuart kelman recognized that knowledge and understanding would greatly enhance the ability of professionals and lay leaders to address the many challenges facing jewish education with

increased innovation the entry of new funders and the connection between jewish education and the quality of jewish life research and evaluation have become over the last two decades an integral part of decision making planning programming and funding

teaching and studying the holocaust features 13 chapters by noted educators covering rationales for teaching the holocaust historiography and incorporating various media like documents film literature art drama music and technology it includes an annotated bibliography for educators and guidance on using technology effectively

holocaust education promise practice power and potential provides timely studies of some of the most pressing issues in teaching and learning about the holocaust around the world europe is experiencing both anti semitic attacks many by radicals claiming the banner of islam and the resurgence of right wing movements that are openly hostile to minority rights particularly for marginalized and vulnerable groups like the roma sinti and muslim refugees can holocaust education an encounter with the most extreme racial ideology to afflict the continent reduce violence and prejudice against jewish and other minority groups the important studies in this volume address these and other pressing issues for the field including the progress of central and eastern european countries that experienced both soviet hegemony and nazi terror in grappling with the history of the holocaust this book was originally published as a special issue of intercultural education
